Permissions: Authors wishing to include figures, tables, or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) for both the print and online format and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

#### Title Page

• The title page should include: • The name(s) of the author(s) • A concise and informative title • The affiliation(s) and address(es) of the author(s) • The e-mail address, and telephone number(s) of the corresponding author

**Abstract:** of not more than 200-300 words should appear in the first page of the manuscript. It should be self-contained and understandable by the general reader outside the context of the article. It should be free from formulae, acronyms and references. The abstract should be followed by a list of up to 5-6 keywords and **three** JEL classification codes.

#### Text Formatting

• Manuscripts should be submitted in Word • Use a normal, plain font (e.g., 10-point Times Roman) for text • Use italics for emphasis • Use the automatic page numbering function to number the pages • Do not use field functions • Use tab stops or other commands for indents, not the space bar • Use the table function, not spreadsheets, to make tables • Use the equation editor or MathType for equations • Save your file in docx format (Word 2007 or higher) or doc format (older Word versions) • Manuscripts with mathematical content can also be submitted in word file.

**Headings:** Please use the decimal system of headings with no more than three levels.

**Abbreviations:** Abbreviations should be defined at first mention and used consistently thereafter.

**Footnotes:** Footnotes can be used to give additional information, which may include the citation of a reference included in the reference list. They should not consist solely of a reference citation, and they should never include the bibliographic details of a reference. They should also not contain any figures or tables.

Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data). Footnotes to the title or the authors of the article are not given reference symbols.

Always use footnotes instead of end notes.

**References:** Reference citations in the text should be identified by numbers in square brackets. Some examples:

• Negotiation research spans many disciplines [3] • This result was later contradicted by Becker and Seligman [5] • This effect has been widely studied [1-3, 7].
